

SUPPORT FAMILY DOCTORS
the heart of health.

**To: The Honourable Julia Gillard MP, Prime Minister of Australia.
The Honourable Tony Abbott MP, Leader of the Opposition.
Parliament House, Canberra.**

We, the undersigned, call on your Parties during this Federal Election campaign to recognise that family doctors are at the heart of the health system and insist that your health policies:

- Support our right to choose our family doctor;
- Support our right to see our family doctor as often as we need to;
- Support the central role of our family doctor in delivering health care and advice to us and our families;
- Provide support that will enable us to spend more time with our family doctor when we need it; and
- Cut red tape – minimising the paperwork and processes that reduce the time that our family doctor can spend caring for us.
