# PRIVATE PRACTICE WEBINAR TRAINING SERIES 2019

(Please select which webinar/s you wish to register for):

#### Workplace Insights - Changing Landscape of Employment Friday 12 April | 10am – 11am

Keeping up to date with changes in the employment and workplace law can be challenging, particularly as this space continues to evolve. This webinar will cover the significant changes like casual employment, flexible work arrangements and domestic violence leave that have occurred in the later part of 2018 and how your practice can work with the changes to minimise the risk of claims against the practice.

#### Preparing for the Festive Season Friday 11 October | 10am – 11am

## Bullying, Harassment and Sexual Harassment in the Workplace Friday 14 June | 10am – 11am

Bullying and harassment and alleged sexual harassment within a workplace is a challenging area for employers to deal with. The implications can touch workers compensation, discrimination and procedural fairness matters. This webinar will cover the critical steps to take when you become aware of a potential problem or allegations are brought to your attention.

#### Safe and Healthy Workplaces -Meeting Employer Obligations Friday 2 August | 10am – 11am

Health and safety obligations for employers are broad and can touch issues that you may not have considered and may not be prepared to deal with. This webinar will cover the major issues affecting workplace health and safety obligations of employers in private medical practice and what you can do to ensure you comply with your obligations.

#### The festive season brings a range of challenges from annual leave, shutdowns, alternative arrangements to workplace celebrations and the risks that are attached to those. This webinar will work through the key issues you need to consider for the festive season so you approach it prepared to enjoy and minimise disagreements.

### O Dealing with Emergency Events Friday 6 December | 10am – 11am

Summer in Queensland has its own set of climate challenges. Whether you are faced with floods, heatwaves or cyclones, nature has a way of touching your workplace. This webinar will cover the need-toknow workplace issues when facing weather events.
